Education

Boston University Boston, MA
Master's in Computer Science & Artificial Intelligence *Aug. 2026 – Expected 2028*
New York University New York City, NY
Bachelor of Arts and Science in Computer Science *Aug. 2021 – Aug. 2025*

Technical Skills

Languages: Python, Java, JavaScript, HTML/CSS, C, C++
Libraries & Frameworks: Flask
Developer Tools: Git/GitHub, Docker, MongoDB, SQL, Excel, GitHub Actions, Bash
Concepts: REST APIs, Agile (Scrum), OOP, CI/CD, Unit Testing

Academic Research

Graduate Research Project, Big Data Science (CS-GY) Spring 2025
New York University

- Built a data pipeline analyzing U.S. immigration discourse across Google Trends, NYT, and Reddit.
- Applied RoBERTa models to classify sentiment and identify shifts in public framing.

Selected Projects

Yonder – Event Discovery Platform Spring 2025
Flask, JavaScript, Docker, MongoDB

- Built a full-stack web app with authentication, search, comments, and user-generated content.
- Designed RESTful APIs and modular backend structure to manage users, events, boards, and interactions.
- Containerized services with Docker Compose for consistent development and deployment.

Voice Review Analyzer – Sentiment Processing System Spring 2025
Flask, Python, Docker, MongoDB

- Developed a speech-to-text and sentiment analysis pipeline using TextBlob and keyword classification.
- Categorized real-time feedback under 2 seconds using 50+ keyword tags.
- Built modular Docker-based services for frontend, ML processing, and database.

Toxicity Calculator – Chemical Analysis Tool Winter 2025
Python, JavaScript, HTML/CSS

- Built a system to evaluate compound toxicity using SMILES parsing and molecular fingerprint comparisons.
- Implemented input validation and regex-based sanitization for accurate analysis.

Experience

Program Assistant – New York University Summer 2023 – Summer 2025
New York, NY

- Supported 800+ students and resolved real-time operational issues in a fast-paced academic program.
- Collaborated with supervisors through one-on-one check-ins to communicate progress, feedback, and goals.

Tutor – America Reads and Counts Spring – Summer 2024
New York, NY

- Coordinated scheduling and payroll tracking for 100+ tutors using Excel.
- Communicated with program coordinators to resolve scheduling and logistical issues.

Outreach Coordinator – Ross Leaders Jan. 2022 – Jan. 2023
Manchester, NH

- Led outreach initiatives engaging 200+ youth across education, mental health, and community programs.
- Built trust-based relationships with participants to support mentorship and long-term engagement.
